

R&R Gage Company

Dimensional Gaging Specialists

ISO/IEC 17025
ACCREDITED

We have received our new updated and expanded Scope and accreditation. Download from our website.

Complete Customer Satisfaction

We are committed to complete customer satisfaction through consistency and excellence in Service, Quality, & Value.

As we all know our economy is going strong. Most lead-times are increasing due to the Increased demand for new product. Please plan accordingly and get your orders placed as soon as you identify a need. This also applies to our In-Plant services as it helps us to be more responsive to your needs.

This is also a great time to get out those old broken or out of calibration gages you have been putting off fixing. Send them in now so we can get them evaluated.

On-Site Service & Calibrations

We offer on-site service and calibrations for equipment such as CMM's, Optical Comparators, Surface Plates, Hardness Testers, or any tool that is too large to ship. Call today for a quote!

NEED CUSTOM GAGES?

We design and build Go / NoGo Gages, Tooling, Setting Gages and holding fixtures, and virtually any other custom gage you require.

We also offer Reverse Engineering and other Metrology services. Just ask us!
